# *About The* **WATERFALL WAY**

**The Waterfall Way is an incredible scenic drive through rolling countryside, beautiful lush rainforest, waterfalls and river valleys.**

The drive passes through more than five national parks, with walks to lookouts, waterfalls, gorges, rock formations and natural swimming holes.

The drive is 185 kms one-way along the B78 Highway, but includes additional driving off the highway to see the highlights.

Expect to drive about 250 kms (one-way) in order to see all the locations listed in this guide.

The drive is heavily trafficked and suitable for most motorists.

The B78 Highway is a high-quality asphalt road, windy and narrow in sections, typically one lane in each direction, with limited overtaking opportunities.

The following locations are accessed via unsealed gravel roads: New England National Park, Cathedral Rock National Park, the Never Never section of Dorrigo National Park and Wollomombi Falls Picnic Area.

However, a 2WD vehicle is sufficient for these roads in good conditions.

## Accessibility

The following sights along the drive are wheelchair accessible:

- Wollomombi Falls Lookout
- Point Lookout
- Ebor Falls
- Dangar Falls
- Skywalk Lookout.

Look for this symbol for accessible activities.

## SUGGESTION

There may be no mobile reception at times along the drive, so download offline maps for navigation assistance.

Armidale is 5.25 hours drive south-west of Brisbane or 5.75 hours north of Sydney.

Urunga is 4.5 hours drive south of Brisbane or 5.5 hours north-east of Sydney.

Armidale is an historic town, rich with art and Indigenous culture.

Coffs Harbour is famous for the Big Banana, Forest Sky Pier and beaches.

In between is where the adventure is, with more than five national parks packed with varying sights and activities.
